Volksbank Malta picks TAS Group

Volksbank Malta has announced that it has selected the TAS Group to provide them with SWIFTNet connectivity and support services through its SWIFT Service Bureau.

Managing Director of Volksbank Malta, Herber Skok said that “After carefully evaluating costs and benefits, we selected the TAS SWIFT Service Bureau because of our profitable long-term relationship that we established in 2003 for the initial setup of our SWIFTNet infrastructure.

We consider TAS a reliable business partner and this consideration was the main factor leading to the decision to outsource the Bank's SWIFT infrastructure. The Service Bureau option delivers an effective competitive advantage in terms of business continuity, levels of service and operational costs. It gives us the assurance of SWIFT certified experts and offers the full range of SWIFT Products and Services”

TAS Group provides SWIFTReady Services and consultancy services with SWIFT Certified Experts for implementation and integration projects in addition to related services in system integration, general consultancy, and system care for customer specific configurations.
